                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   SINCE 277:1453-1474(1997).

BINCETION: IN EUBACTERIA PPGPP (GUANOSINE 3'-DIPHOSPHATE 5-'
FUNCTION: IN EUBACTERIA PPGPP (GUANOSINE 3'-DIPHOSPHATE 5-'
DIPHOSPHATE) IS A MEDIATOR OF THE STRINGENT RESPONSE THAT
COORDINATES A VARIETY OF CELLULAR ACTIVITIES IN RESPONSE TO
CHANGES IN NUTRITIONAL ABUNDANCE. THIS ENZYME CATALYSES THE
FORMATION OF PPPGPP WHICH IS THEN HYDROLYSED TO FORM PPGPP.
CATALYTIC ACTIVITY: ATP + GTP = AMP + GUANOSINE 3'-DIPHOSPHA
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     PATHWAY: FIRST STEP IN THE METABOLISM OF PPGPP. SIMILARITY: BELONGS TO THE RELA / SPOT FAMILY.
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         5-'TRIPHOSPHATE.
